**Today we have Very High fire danger. Please prevent any sparks from occurring.**

**Cause:** Under Investigation

Crews monitored the Eastland Complex fires yesterday and saw no significant activity. A few resources were released from the complex and were reassigned to the Ramsey Fire in Brown County and the Das Goat fire in Medina County. Today winds should be erratic and shift directions as a front passes through the region, bringing the potential for light moisture on Tuesday. Local fire departments, Texas A&M Forest Service, and the Southern Area Gray Team are working together to reach 100% containment of the complex as soon as possible.

## **Eastland Complex: 54,513 acres, 90% contained**

**Kidd Fire: 42,333 acres, 80% contained (Carbon, Kokomo, and Gorman).** A total of 142 structures confirmed lost, with no differentiation between homes and outbuildings.
