

# Smoke Outlook

## Northern New Mexico Cerro Pelado

4/28 - 4/29

Issued by Wildland Fire Air Quality Response Program on April 28, 2022 at 08:27 AM MDT

### Special Statement

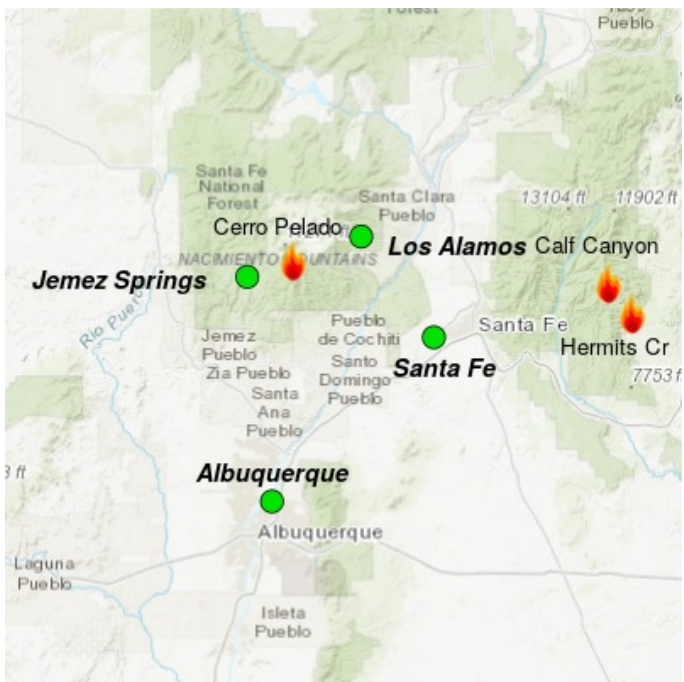

Red Flag warning for strong winds and low relative humidity on Friday

### Fire

Fire Size: 5711 Acres, 5% contained. Fire behavior was more active yesterday and will continue to be active today with above normal temperatures and dry winds. Friday will bring a cold front with shifting strong, gusty winds leading to critical fire weather conditions.

### Smoke

Today's smoke will likely be similar to yesterday with GOOD air quality with periods of MODERATE. Friday's wind shift, due to the approaching cold front, will likely bring more smoke into Santa Fe area with periods of MODERATE and possibly into Unhealthy for Sensitive Groups (USG) air quality.
