

# Smoke Outlook

6/13 - 6/14

## Eastern New Mexico - Hermits Peak-Calf Canyon-Midnight Fires

Issued by Wildland Fire Air Quality Response Program on June 13, 2022 at 07:21 AM MDT

### Special Statement

RED FLAG WARNING is in effect for today. Conditions are favorable for extreme fire behavior.

### Fire

Hermits Peak & Calf Canyon Fire is currently at 320,495 acres and 70% contained. The Midnight Fire is currently at 3,944 acres and 0% contained.

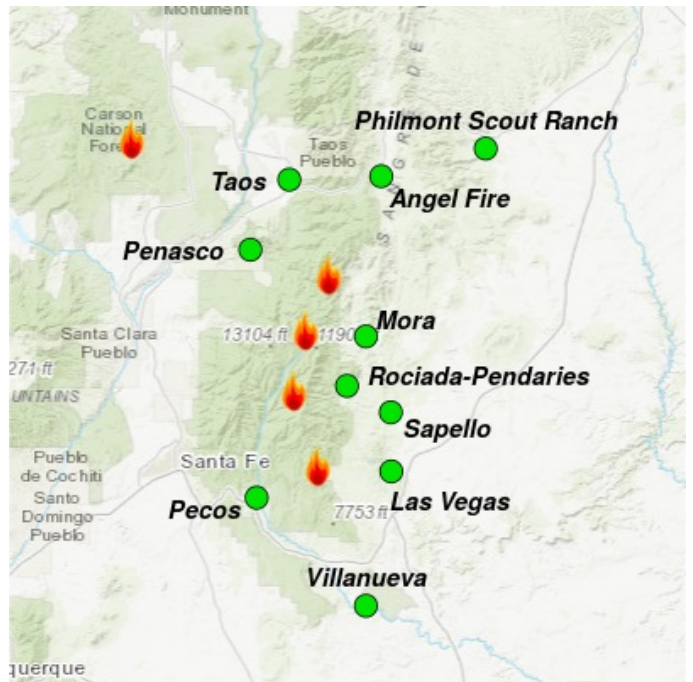

### Smoke

Strong winds will keep smoke from both fires well dispersed throughout the day. 'Good' air quality with brief periods of 'Moderate' is expected. However, we will likely see hazy skies. New fires burning to our west in Arizona, will contribute to our hazy conditions

We have critical fire weather for the next several days. Looking further ahead, we could get into the seasonal monsoonal pattern by the end of the week. Until then, stay alert to changing conditions!

### Detailed Smoke Forecasts

Location-specific smoke information is available at <https://outlooks.wildlandfiresmoke.net/outlook/6cfc6b93>
