# **Informational Meeting Emergency Watershed Protection Program For Landowners affected by the Cerro Pelado Fire**

**Saturday June 25, 2022  
10:00 am**

**La Cueva Fire Station  
960 Forest Road 10  
La Cueva, NM  
1 Mile South from Hwy 4**

The EWP Program is a recovery effort aimed at relieving imminent hazards to life and property caused by floods, fires, windstorms, and other natural disasters. All projects must have a project sponsor. NRCS may bear up to 75 percent of the eligible construction cost of emergency measures. The remaining costs must come from local sources and can be in the form of cash or in-kind services.

EWP is designed for installation of recovery measures to safeguard life and property as a result of a natural disaster. Threats that the EWP Program addresses are termed watershed impairments. These include, but are not limited to:

- debris-clogged waterways,
- unstable streambanks,
- severe erosion jeopardizing public infrastructure
- wind-borne debris removal, and
- damaged upland sites stripped of protective vegetation by fire or drought.

**Cuba Soil and Water Conservation District will serve as the project sponsor for the EWP for the Cerro Pelado Fire.**
