Send form to: donations@co.carbon.mt.us

Why complete the equipment form?

Just like your volunteer hours, using your equipment on eligible events qualifies as a volunteer donation and can be tracked as part of the County's 25% match.

Details matter!

A 1-Ton pickup moving cargo has a greater value than a Subaru making deliveries, but it all adds up!

Why do we need to know the type of work?

FEMA requires the work to be flood related and active (not staged/unused equipment).

Why do we need to know location?

FEMA requires the work to be done in a flood impacted area or in support of flood related efforts.
