

## Smoke Outlook

Central Oregon Windigo Fire and Potter Fire

Issued by Wildland Fire Air Quality Response Program on August 06, 2022 at 07:52 AM PDT

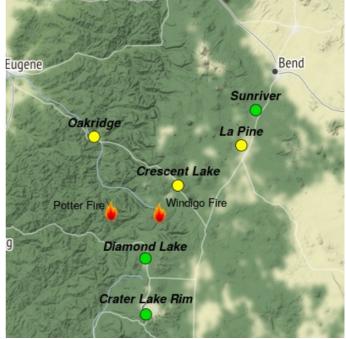

8/06 - 8/07

## Fire

The Windigo Fire has been remapped to 1046 acres with 5% containment. The Potter Fire grew 18 acres Friday and is now at 167 acres with 0% containment. Minimal fire growth is expected today. For additional information on the Potter Fire and Windigo Fire.

## Smoke

Terrain induced light upslope flow late this morning will shift to westerly early this afternoon and to NW late today into this evening. As these winds shift clockwise today smoke from the Cedar Creek fire, including Windigo and Potter fires, will impact the Sunriver and the La Pine areas this afternoon, and Crescent Lake and Diamond Lake this evening. Winds will shift to easterly overnight which will set the stage for smoke to move down the Salt Creek drainage into Oakridge. Depending on amount of smoke generated today, Moderate to USG AQ is likely tonight in Oakridge.

Daily AQI Forecast\* for Saturday

	Yesterday	Fri	Forecast*	Sat	Sun
Station	hourly	8/05	Comment for Today Sat, Aug 06	8/06	8/07
	6a noon 6p			_
