Yeti and Alex Fire Updates

August 11, 8 a.m.

Incident Start: Yeti, 7/29/2022 – Alex, 7/31/2022		Incident type: Wildland Fires
Cause: Lightning		Incident location: Klamath National Forest, California
Acres: Yeti, 7886 Alex, 151	Percent contained: Yeti, 79% Alex, 90%	Total Personnel (both fires): 694 Crews, 15 – Engines, 32 – Dozers, 6 Water tenders, 12 – Helicopters, 2
First responder injuries: 2		First responder fatalities: 0
Structures threatened: 336		Structures damaged/destroyed: 0

Summary

Yeti: Minimal heat remains along the perimeter of the fire as crews continue to mop up and add depth to cool containment lines. Active overnight patrols encountered no issues on their final night shift.

Today, firefighters will continue to seek out any lingering heat in stump holes and heavy logs that could threaten the lines, particularly along the fire’s southwest edge from the Four Corners intersection west along Joe Miles Ridge Road and down to the Klamath River.

Suppression repair is 80% complete on indirect lines as crews work with archeological and cultural resource advisors to install water bars to minimize erosion and take other measures to reduce the impact of dozer lines.

Alex: Firefighters have encountered little to no heat along the perimeter. Crews will monitor and patrol today.

Weather: Conditions remain warm and dry with light winds. With no rain for the past 30 days and extremely dry vegetation, the danger of new fires remains high. Residents and visitors are asked to use caution, remain vigilant and report any wildfires to the appropriate emergency authorities.

Evacuations and closures: All evacuation warnings have been lifted in the area of the Yeti Fire. For information on evacuations, please visit <https://community.zonehaven.com/>. To sign up for alerts, please visit <https://www.co.siskiyou.ca.us/emergencyservices/page/codered-emergency-alert>.

Highway 96 remains closed because of the McKinney Fire.

Fire restrictions and an [emergency fire area closure](#) are in effect on the Klamath National Forest. For more information, visit <https://www.fs.usda.gov/alerts/klamath/alerts-notices/>

Information about the McKinney Fire (east of the Yeti Fire along Highway 96) is available at inciweb.nwcg.gov/incident/8287/
