Yeti and Alex Fire Updates

August 12, 8 a.m.

Incident Start: Yeti, 7/29/2022 – Alex, 7/31/2022		Incident type: Wildland Fires
Cause: Lightning		Incident location: Klamath National Forest, California
Acres: Yeti, 7886 Alex, 151	Percent contained: Yeti, 90% Alex, 100%	Total Personnel (both fires): 450 Crews, 10 – Engines, 10 – Dozers, 5 Water tenders, 6 – Other heavy equipment, 1 – Helicopters, 1
First responder injuries: 3		First responder fatalities: 0
Structures threatened: 0		Structures damaged/destroyed: 0

Summary

Yeti: The Yeti Fire has remained within containment lines for multiple days now. Crews are remaining vigilant for any roll out, especially on the steep slope above Highway 96. They continue to mop up as deeply as they can safely to ensure continued containment. Repair work continues as crews work to put erosion mitigation measures in place. Residents and visitors can expect to see isolated areas of smoke and heat through the next few weeks as unburned pockets of vegetation continue to smolder. An area closure is in place for public safety within the fire area.

Alex: The Alex Fire is 100% contained, but will be patrolled regularly.

Weather: With high pressure building, a warming and drying trend will continue into the weekend. Smoke from down river fires will likely impact the area in the afternoon.

Evacuations and closures: No evacuation orders or warnings are in place due to the Yeti Fire. For information on evacuations, please visit <https://community.zonehaven.com/> To sign up for alerts, please visit <https://www.co.siskiyou.ca.us/emergencyservices/page/codered-emergency-alert>.

For Highway 96 road conditions, please visit <https://roads.dot.ca.gov/>.

Fire restrictions and an [emergency fire area closure](#) are in effect on the Klamath National Forest. For more information, visit <https://www.fs.usda.gov/alerts/klamath/alerts-notice/>

Information about the McKinney Fire (east of the Yeti Fire along Highway 96) is available at inciweb.nwcg.gov/incident/8287/
