

# Smoke Outlook

## Central Oregon Cedar Creek Fire and Windigo Fire

8/24 - 8/25

Issued by [Wildland Fire Air Quality Response Program](#) on August 24, 2022 at 06:19 AM PDT

### Fire

The Cedar Creek Fire in Central Oregon is expected to grow slowly over the next few days. It is about 7,172 acres with 0% containment. Light warmer and dryer winds today will be out of the west until the afternoon when they shift from the northwest. The Windigo Fire is 97% contained. For additional information on the fires, see [Cedar Creek Fire](#), and [Windigo Fire](#).

### Smoke

Wednesday's weather should be much like Tuesday. We should see light smoke in most of the forecast area. Oakridge will probably experience some smoke from early morning downslope winds near the fire, but it should lift by noon. Areas east of the fire will probably receive little. Towns southeast of the fire will probably have overall Good air quality but have periods noticeable smoke on and off all day. Waldo Lake will probably experience Moderate smoke much of the day. The Windigo Fire is not producing significant amounts of smoke.

Daily AQI Forecast\* for Wednesday

Station	Yesterday			Tue 8/23	Comment for Today -- Wed, Aug 24	Forecast*
