

Smoke Outlook

Central Oregon Cedar Creek Fire and Windigo Fire

8/25 - 8/26

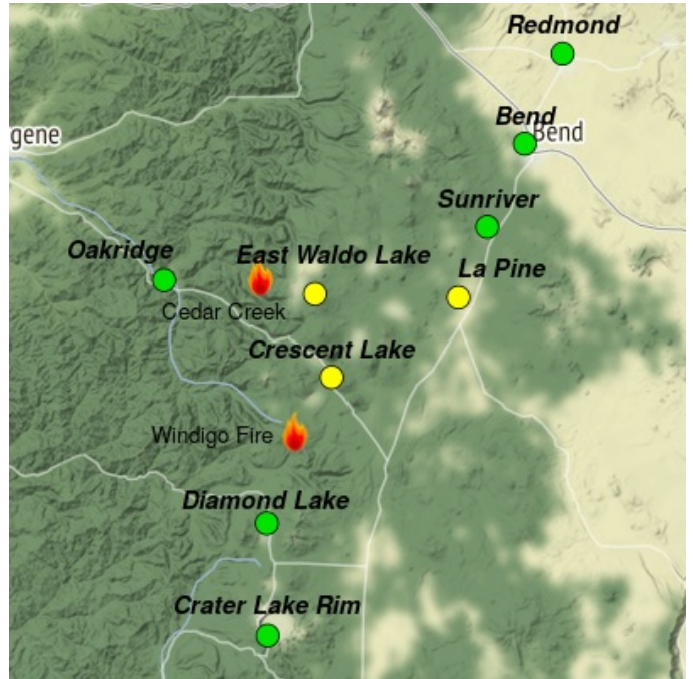

Issued by [Wildland Fire Air Quality Response Program](#) on August 25, 2022 at 06:45 AM PDT

Fire

The Cedar Creek Fire in Central Oregon is about 7,264 acres with 0% containment. We are expecting slightly more fire activity today with the warmer and dry air. The Windigo Fire is 97% contained. For additional information on the fires, see [Cedar Creek Fire](#), and [Windigo Fire](#).

Smoke

Thursday's weather should be much like Wednesday except a little warmer and the winds will blow most of the day and overnight out of the west. We should see light smoke in most of the forecast area. Oakridge will probably experience some smoke from early morning downslope winds near the fire, but it should lift by noon. Areas east of the fire, including Waldo Lake, will probably receive much more smoke than yesterday. Crescent Lake will probably have overall Moderate air quality with periods of lighter smoke on and off all day. The Windigo Fire is not producing significant amounts of smoke.

Daily AQI Forecast* for Thursday

Station	Yesterday hourly			Wed 8/24	Comment for Today -- Thu, Aug 25	Forecast*	
	6a	noon	6p			Thu 8/25	Fri 8/26
