

Smoke Outlook

Central Oregon Cedar Creek Fire and Windigo Fire

8/27 - 8/28

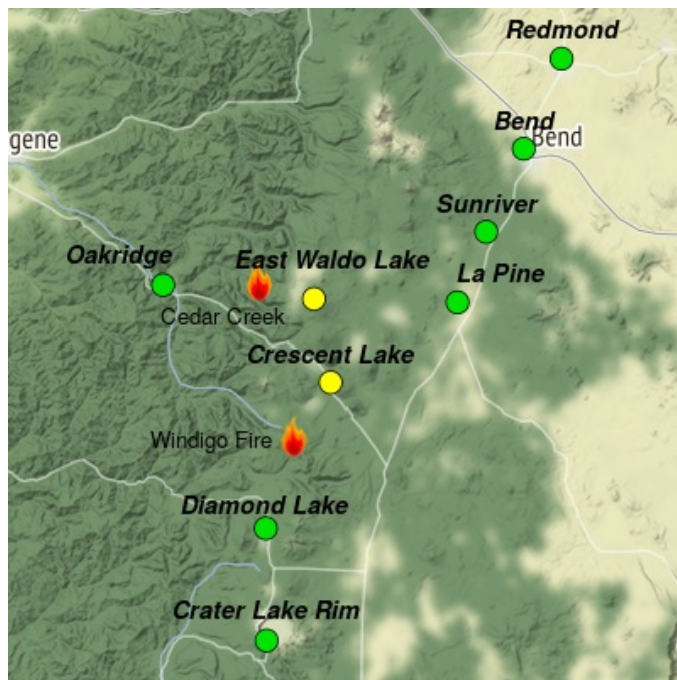

Issued by [Wildland Fire Air Quality Response Program](#) on August 27, 2022 at 06:43 AM PDT

Fire

The Cedar Creek Fire in Central Oregon is about 7,602 acres with 0% containment. We are expecting much less fire activity today with the cloud cover, light rain potential and cool, moist air. The Windigo Fire is 99% contained. For additional information on the fires, see [Cedar Creek Fire](#), and [Windigo Fire](#).

Smoke

With a damp and cloudy day with relatively slow-moving air, we should see light smoke in most of the forecast area. Oakridge may experience a little smoke this morning. Areas east of the fire, including Waldo Lake will see smoke again today due to the light winds and cloud cover. Crescent Lake may be in Moderate smoke all day. The Windigo Fire is not producing significant amounts of smoke.
