

Smoke Outlook

Central Oregon Cedar Creek Fire and Windigo Fire

8/28 - 8/29

Issued by [Wildland Fire Air Quality Response Program](#) on August 28, 2022 at 06:41 AM PDT

Fire

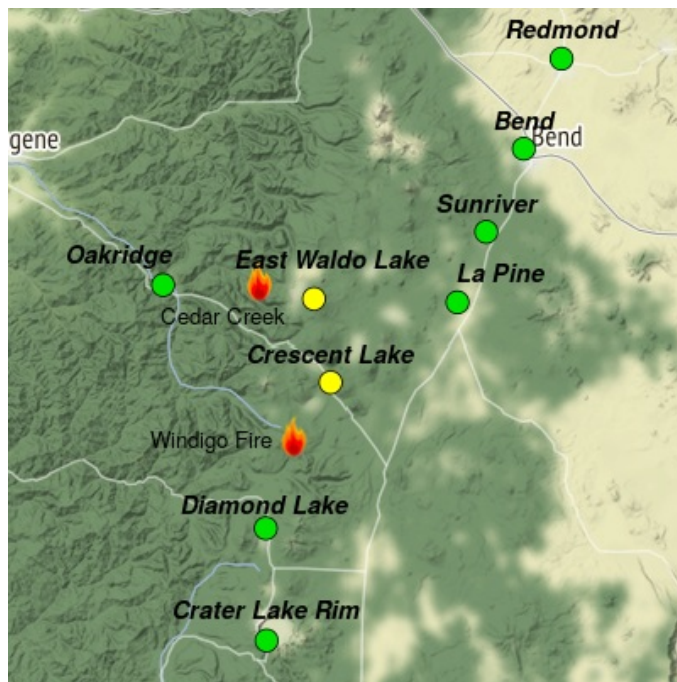

The Cedar Creek Fire in Central Oregon is about 7,632 acres with 10% containment. We are expecting moderate fire activity today with the warmer and dryer air. The Windigo Fire is 99% contained. For additional information on the fires, see [Cedar Creek Fire](#), and [Windigo Fire](#).

Smoke

Slow moving air, coming predominantly out of the northwest, will likely result in Moderate levels of smoke in areas closest to the fire, especially Waldo Lake and Crescent Lake. Oakridge may have some smoke in the morning as is common with cooler air flowing out of the mountains down the Salmon Creek valley. La Pine north to Sunriver may see some smoke in the morning. Other locations further from the fire should not be affected by smoke from this fire.

Health and Safety Message

Learn the air quality index numbers and colors during periods of poor air quality, get air quality alerts, note the numbers and colors of air quality monitors, and know when to limit your time outdoors. For real time information see fire.airnow.gov, oakridgeair.org, and [LRAPA - Today's Current Air Quality](#).

Daily AQI Forecast* for Sunday

Station	Yesterday			Sat 8/27	Comment for Today -- Sun, Aug 28	Forecast*	
	hourly					Sun 8/28	Mon 8/29
	6a	noon	6p				
La Pine					Some smoke in the morning but overall Good air quality for today.		
Bend					Overall Good air quality, no smoke expected near town.		
Redmond					Smoke may roll in around sunset, but not at levels worse than Moderate.		
Crater Lake					Overall Good air quality today		
Diamond Lake	No hourly data				Overall Good AQ with some smoke.		
Sunriver					Some smoke in the morning but overall Good air quality for today.		
Oakridge					Some smoke expected in the morning until about noon.		
Crescent Lake	No hourly data				Smoke may blow in this afternoon, creating USG conditions for a couple hours.		
East Waldo Lake	No hourly data				A little smoke in the morning, becoming Moderate around noon until sunset.
