

# Smoke Outlook

## Central Oregon Cedar Creek Fire

8/31 - 9/01

Issued by [Wildland Fire Air Quality Response Program](#) on August 31, 2022 at 09:25 AM PDT

### Fire

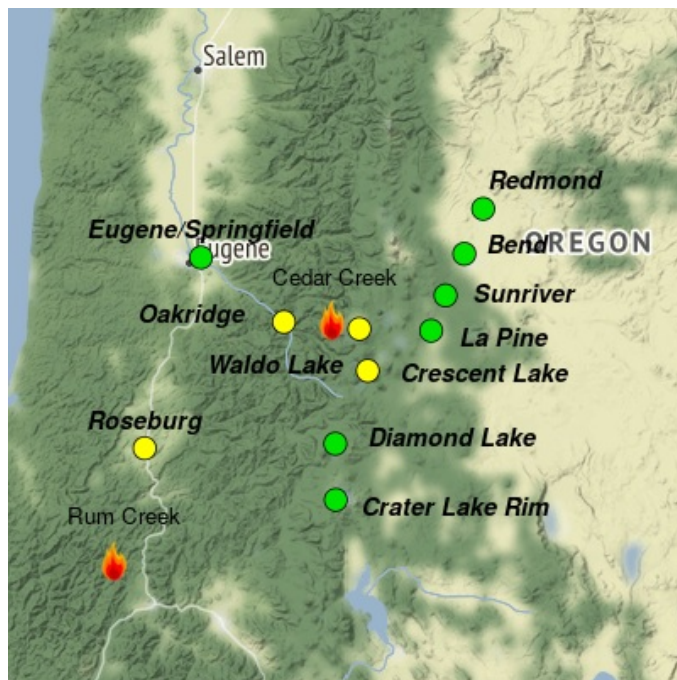

The Cedar Creek Fire in Central Oregon is about 7,698 acres with 12% containment. We are expecting active fire today with light winds and hot, dry air over the area. For additional information on the fires, see [Cedar Creek Fire](#), and [Rum Creek Fire](#)

### Smoke

The entire forecast area will probably have some smoke all day from not only the Cedar Creek Fire but also the Rum Creek fire burning to our southwest. Oakridge may again have Moderate levels of smoke for most of the day. Waldo Lake may have Moderate levels of smoke overnight if smoke near the surface of the fire does not get much lift.

### Health and Safety Message

Even moderate air quality can affect some people. Plan outdoor activities and recreation ahead of time. Try to reduce long exposures when in smoky areas. Fine particulate matter (PM2.5) is an air pollutant that is a concern for people's health.

Daily AQI Forecast\* for Wednesday

Station	Yesterday hourly			Tue 8/30	Comment for Today -- Wed, Aug 31	Forecast*	
	6a	noon	6p			Wed 8/31	Thu 9/01
