

Smoke Outlook

Central Oregon Cedar Creek Fire

8/31 - 9/01

Issued by [Wildland Fire Air Quality Response Program](#) on August 31, 2022 at 12:01 PM PDT

Special Statement

Smoke will be in the Unhealthy range at times in the Oakridge area.

Fire

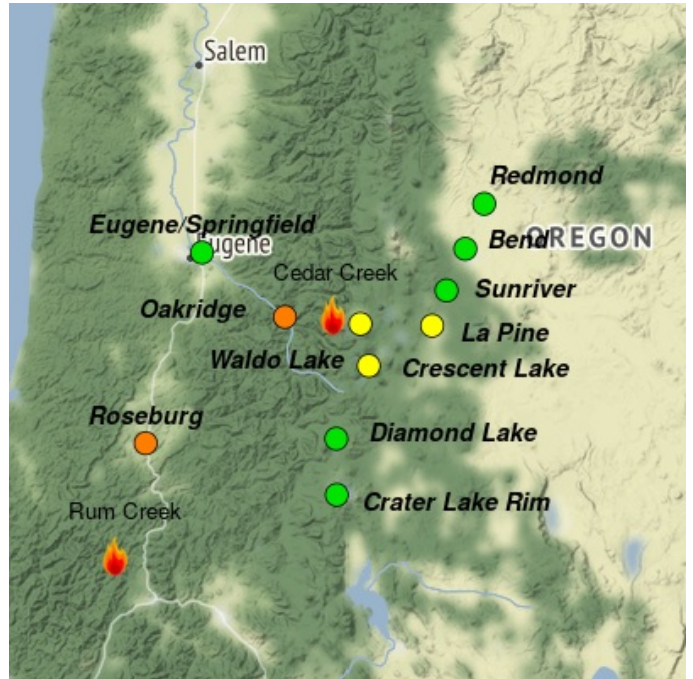

The Cedar Creek Fire in Central Oregon is about 8,421 acres with 12% containment. We are expecting active fire today with light winds and hot, dry air over the area. For additional information on the fires, see [Cedar Creek Fire](#), and [Rum Creek Fire](#)

Smoke

The entire forecast area will probably have some smoke all day from not only the Cedar Creek Fire but also the Rum Creek fire burning to our southwest. Oakridge will have USG (unhealthy for sensitive groups) to Unhealthy levels of smoke for most of the day. Waldo Lake may have Moderate levels of smoke overnight if smoke near the surface of the fire does not get much lift. Roseburg will experience more smoke than yesterday up to USG levels.

Health and Safety Message

Learn the air quality index numbers and colors during periods of poor air quality, get air quality alerts, note the numbers and colors of air quality monitors, and know when to limit your time outdoors. For real time information see fire.airnow.gov, oakridgeair.org, and [LRAPA - Today's Current Air Quality](#).
