

Six Rivers Lightning Complex September 8, 2022 UPDATE

Fire Information Line: (707) 356-9442
Email: 2022.LightningComplex@firenet.gov
Inciweb: <https://inciweb.nwcg.gov/incident/8312/>
Facebook: www.facebook.com/SixRiversNF

The Six Rivers Lightning Complex is currently 41,502 acres with 81% containment and 998 personnel assigned to the incident. (Ammon – 11,465 acres; Campbell – 30,037 acres)

CURRENT SITUATION

Hot temperatures are expected to persist for the next several days. Although there has been no perimeter growth across the Ammon and Campbell fires for several days, interior burning of litter and heavier ground fuels across the forest floor will continue to produce smoke. The current stable weather conditions will keep the smoke from moving out of the area, so similar conditions are expected with the smoke accumulating along the Trinity River in the morning and lifting in the late afternoon each day. Firefighters continue to patrol the perimeter of the fire, coordinating with the Unmanned Aerial Systems (UAS) to identify the remaining hot areas near the control lines. Wildland crews are also continue to remove hazard trees that could impact the road systems throughout the fire area.

Resource Advisors (READS) are working closely with local tribal and forest personnel to identify the many cultural resource areas in the fire areas in advance of suppression repair and rehabilitation to ensure these areas will not be disturbed while fire crews work in the areas of concerns. This coordination also allows for efficient use of shared resources.

ROAD CLOSURES

Due to a large presence of fire personnel and machinery working to build containment lines for the Ammon Fire, residents are asked to limit travel on Titlow Hill Road/Route 1 in zones HUM-E052 and HUM-E062 to essential traffic only. Residents may still use roads to travel out of evacuation order zones:

The following roads into evacuation zones have been closed.

- Forest Route 7n15 at Six Rivers Forest Boundary

The following roads are restricted to local traffic only:

- Horse Linto Creek Road at Saddle Lane (Open to residents only)
- 6N06 Sandy Bar (Route 6)
- Titlow Hill Road (Route 1) at Horse Mountain Botanical Area

State Route 299 remains open to through traffic. Residents are encouraged to visit <http://quickmap.dot.ca.gov/> to check for state highway closures.

FOREST CLOSURES

Forest order NO. 22-10-06 Six Rivers Lightning Complex is currently in place, which includes river access at Kimtu Park.
