The Six Rivers Lightning Complex is currently 41,540 acres with 81% containment and 949 personnel assigned to the incident. Ammon – 11,465 acres; Campbell – 30,075 acres, with 38 acres of interior growth.

### **CURRENT SITUATION**

Yesterday was another hot day across the fire area. A Remote Automated Weather System (RAWS), near the west-southwest area of the fire, registered 104° at 5:00 pm. A burning tree fell into an unburned pocket of fuel, causing a minor flare on Lone Pine Ridge control line on the north side of the Campbell Fire. Crews were aided by helicopter support to extinguish flames before they could threaten the containment line.

Today, fire crews will continue to patrol the perimeter looking for any remaining hotspots. Firefighters will continue to fall hazard trees along roadways within the burned area and continue with suppression repair. Intense heat is expected again today but temperatures should begin to decrease over the next few days. Smoke production will decrease as fire activity declines, improving overall air quality. You can monitor the air conditions in your area at the AirNow Fire and Smoke Map - <https://fire.airnow.gov>.

### **ROAD CLOSURES**

Due to a large presence of fire personnel and machinery working to build containment lines for the Ammon Fire, residents are asked to limit travel on Titlow Hill Road/Route 1 in zones HUM-E052 and HUM-E062 to essential traffic only. Residents may still use roads to travel out of evacuation order zones:

The following roads into evacuation zones have been closed.

- Forest Route 7n15 at Six Rivers Forest Boundary

The following roads are restricted to local traffic only:

- Horse Linto Creek Road at Saddle Lane (Open to residents only)
- 6N06 Sandy Bar (Route 6)
- Titlow Hill Road (Route 1) at Horse Mountain Botanical Area

State Route 299 remains open to through traffic. Residents are encouraged to visit <http://quickmap.dot.ca.gov/> to check for state highway closures.
