

# FACT SHEET – STOCKTON HILL FIRE

**Today's Date:** 07/09/2023

**Start Date:** 07/04/2023    **Location:** 10 mi. N. Kingman    **Cause:** Human-caused, under investigation

**Acres:** 589    **Containment:** 80%

**Evacuations:** None

**Structures Damaged:** 0    **Destroyed:** 0

**Summary:** Work continued within communities on the northeast flank of the fire today to ensure no heat remains within the structures. A flight over the fire yesterday showed no heat within the interior of the fire. Winds are stirring up some ash, but no smoke is being reported. Over the next few days, crews will continue to secure line along the northwest flank and patrol and monitor the fire's perimeter. Resources are making significant progress with containment efforts. The fire is now 80% contained. One hand crew and three engines remain assigned to the fire.

**Resources and Personnel Assigned:** 33

**Type 2 Hand Crew:** 1, **Engines:** 3

**Weather:** Hot, dry, and breezy weather. Heat will slowly build through the week into next weekend and winds will slowly weaken.
