

# Smoke Outlook

## West-Central Oregon - Bedrock Fire

# 8/04 - 8/05

Issued by [Wildland Fire Air Quality Response Program](#) on August 04, 2023 at 08:07 AM PDT

### Special Statement

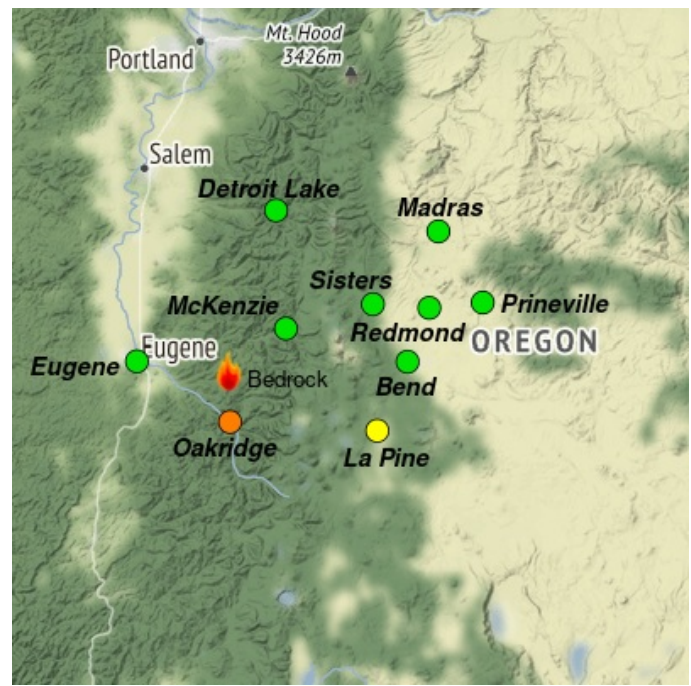

An **Air Quality Advisory** is in effect for parts of Deschutes, Lake, and Klamath counties until further notice.

### Fire

The Bedrock fire is estimated at 12,213 total acres and is 5% contained. No acreage update was available. An increase in clouds and relative humidity may lead to decrease in fire behavior.

### Smoke

Brief smoke impacts are possible along the McKenzie this morning but primarily GOOD conditions are expected. Oakridge and La Pine will see periods of smoke today and into tonight with up to UNHEALTHY conditions at times although some periods of GOOD-MODERATE are also expected. **Showers/storms in the area today may cause brief gusty winds and could push smoke in any direction - be alert for quickly changing conditions.** Smoke will be possible over the weekend in Eugene/Springfield during the morning, and McKenzie corridor for morning to midday, with brief MODERATE conditions expected. A majority of the smoke though will continue to be pushed to the southeast of the fire impacting Oakridge, La Pine, and into parts of Klamath and Lake Counties.

Daily AQI Forecast\* for Friday

Station	Yesterday			Thu 8/03	Comment for Today -- Fri, Aug 04	Forecast*	
	6a	noon	6p			Fri 8/04	Sat 8/05
