

CWDG Grant

(Community Wildfire Defense Grant)

The CWDG Grant is a county wide program that serves the community as an option for fuels mitigation to reduce fire risk and promote forest health.

With an increase in fire behavior in our area, there isn't a better time to be proactive and mitigate risk on your property.

Landowners must reside within the priority areas as listed by the Lincoln County CWPP to qualify for the grant.

This includes residents in the Chain of Lakes and McGinnis areas!

For more information and how to apply, visit our website or call the number provided below!
