Fire Update – Elkhorn Fire, August 20, 2023

McCall, Idaho – The Elkhorn Fire is 26,048 acres and 49% complete. **A Flood Watch is in effect Sunday afternoon through Monday evening.** Heavy rainfall (over an inch) is expected Sunday through Tuesday. For weather updates visit the National Weather Service Missoula Forecast Office <https://www.weather.gov/mso/>.

Burn scars and flood prone areas will be at risk for rock, mudslide, debris flows. Learn how to prepare at <https://www.ready.gov/floods>.

There is no longer a detour on Divide Trail #505. Fireline construction has halted and all efforts are in support of debris removal and suppression repair in preparation for the forecasted weather event. Fire personnel will continue using, helicopters, and vehicles to backhaul structural protection equipment no longer needed from Whitewater Ranch downriver to China Bar.

Communication continues with the boaters entering the river at Corn Creek and again at Hancock Rapids before entering the fire footprint along the river corridor. Fire activity has significantly altered the landscape on both sides of the river in the area of the Elkhorn fire. Be on the lookout for falling rocks, logs, and other debris. Please exercise caution when floating through the fire area. Heavy rains on burned areas may create new river hazards and rapids. Boaters are required to stop at Hancock Campsite on river-left, at river mile 26.1 to receive further instruction via a river information board regarding passing through and camping in the area of the Elkhorn Fire. Please read the river information board for any changes that may have occurred since you left Corn Creek launch. Camping, recreating (i.e., picnic, bathroom breaks and beach walking) and stopping through the area of Elkhorn fire activity is allowed with some exceptions. Once past Hancock Camp (River Mile 26.1) there is no stopping until boaters pass Magpie Creek Camp (River Mile 29.6). After passing Magpie Creek Camp, boaters will be allowed to camp and recreate on a First Come, First Served basis everywhere except: Upper Allison, Allison, Lower Allison, Whitewater Camp. After passing Whitewater Ranch (River Mile 39) there are no restrictions connected to the Elkhorn Fire. **For additional information on rafting, contact the river desk at 208-756-5587 or 208-481-2625.**

The U.S. Forest Service Nez Perce-Clearwater and Payette National Forests issued the Elkhorn fire area, roads and trails closure order #01-17-05-23-003, <https://www.fs.usda.gov/alerts/nezperceclearwater/alerts-notice/?aid=82169> that spans both sides of the Salmon River but excludes the Salmon River Wild and Scenic Corridor below the high-water line.

A Temporary Flight Restriction (TFR) is in place for a two-mile buffer around the fire perimeter. All aircraft (including drones) not assigned to the fire are required to remain out of the TFR area between 0900-2100.

Fire info and daily air quality updates are available on InciWeb <https://inciweb.nwcg.gov/incident-information/idpaf-elkhorn-fire> and the Payette National Forest Facebook <https://www.facebook.com/payettenationalforest>.
