

Smoke Outlook

SW/SC Oregon Smith River Complex

9/04 - 9/05

Issued by Wildland Fire Air Quality Response Program on September 04, 2023 at 07:38 AM PDT

Special Statement

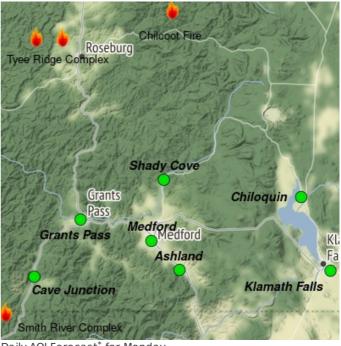

Smoke and fog can reduce visibility on roadways. Reduce your speed and use caution when visibility is impacted. Air quality advisory for Douglas County near Interstate 5 lifts Monday afternoon. More information at Oregon Smoke.

Fire

In addition to Smith River Complex, multiple active fires across OR may contribute smoke to the forecast area, including: Chilcoot Fire, Ridge Fire, Salmon Fire, Dinner Fire, Lookout Fire, Tyee Ridge Complex, Bedrock Fire, Flat Fire, and Brice Creek Fire. For more information, see InciWeb.

Smoke

For today, little to no smoke will be expected due to continued cool and damp weather. Weekend precipitation and cooler temperatures suppressed smoke generation and greatly improved air quality in the forecast area. Today, air quality will remain GOOD. Mid week, W winds will return some smoke from the Smith River Complex back into parts of the area. While National smoke models are predicting much improvement in smoke dispersion today and into mid week, smoke conditions can change at any time. If you see smoke and smell smoke, you're breathing smoke. For near real-time air quality information, see the Fire and Smoke Map.

Daily AQI Forecast* for Monday

Road Cameras

For road information, visit ODOT Road Cameras.

	Yesterday	Sun	Forecast*	Mon	Tue
Station	hourly	9/03	Comment for Today Mon, Sep 04	9/04	9/05
	6a noon 6p				
Grants Pass			Mostly GOOD air quality with periods of light smoke in the morning.		
Medford			GOOD Monday and Tuesday. Light smoke expected later in the week.		
Ashland			Air quality to remain GOOD with occasional periods of light smoke later.		
Cave Junction			Daily air quality GOOD to MODERATE due to continued cool wet weather.		
Klamath Falls			Cooler temperatures and precipitation keep GOOD air quality for next few days		
Shady Cove			GOOD air quality for next few days.		
Chiloquin			Air quality expected to stay at GOOD for the next few days.		

Issued Sep 04, 2023 by Tod Johnson, Air Resource Advisor, 509.885.6003; Gisele Majidi-Weese, Trainee, 828.337.2323

Air Quality Index (AQI)	Actions to Protect Yourself		
😑 Good	None		
– Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.		
🛑 USG	People within Sensitive Groups [*] should reduce prolonged or heavy outdoor exertion.		
🛑 Unhealthy	People within Sensitive Groups [*] should avoid all physical outdoor activity.		
Very Unhealthy	Everyone should avoid prolonged or heavy exertion.		
Hazardous	Everyone should avoid any outdoor activity.		

*Disclaimer: This forecast is based on fine particulates only; ozone is not included. Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
