Evacuations lifted on Tyee Ridge Complex

UMPQUA, Ore.—The Douglas County Sheriff’s Office has cancelled all evacuation notices for the Tyee Ridge Complex. Structures are no longer threatened. Closures on Bureau of Land Management managed lands remain in place.

Late Friday afternoon, a southwest portion of the Cougar Creek Fire pushed outside the control lines into some unburned fuels. The slopover was contained by utilizing helicopters for bucket drops and hand crews to reestablish control lines. Overnight crews worked to mop up the area, and day shift operations will complete that work.

Today’s weather will be moderating from previous days, with slightly cooler temperatures and increased humidity. Firefighters will continue mop up across the fire, as well as backhaul of firefighting hose and equipment where it is no longer needed. Repair work is also occurring in portions of the fire.

Fire season is still active, and members of the public should actively practice fire prevention. That means following established regulations that are in place for everyone’s safety.

The Douglas District is in Public-Use Restriction level HIGH. For more information about the industrial and public regulations for the Douglas District, please visit www.dfpa.net or call their office directly at 541-672-6507.

Oregon Department of Forestry Team 3
Eric Perkins, Incident Commander trainee
Chris Cline, Incident Commander
