

Smoke Outlook

West-Central Oregon - Lookout and Bedrock Fire

9/06 - 9/07

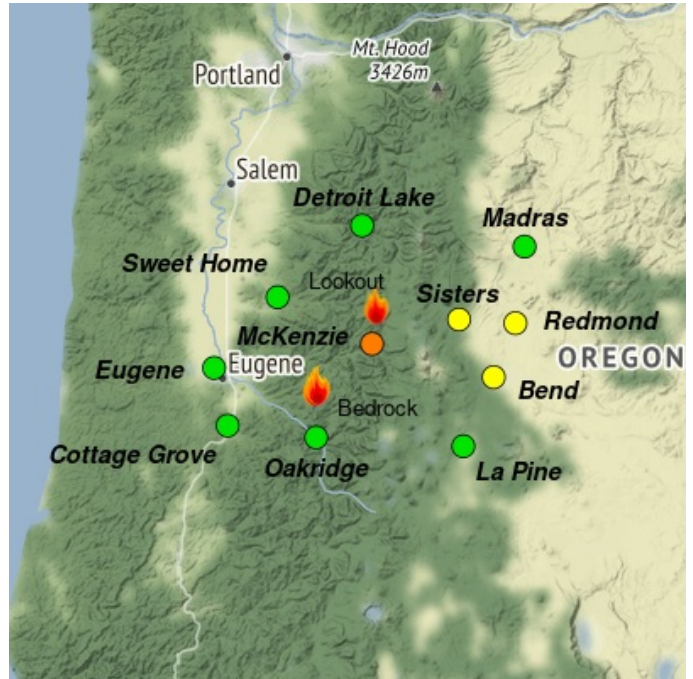

Issued by Wildland Fire Air Quality Response Program on September 06, 2023 at 07:44 AM PDT

Fire

The Lookout Fire is 24,404 acres with 20% containment. The Bedrock Fire is 31,590 acres with 90% containment. Latest fire information is available at InciWeb: [tinyurl.com/Fire-Information](https://www.inciweb.org/Fire-Information)

Smoke

Like yesterday we will likely continue to see GOOD air quality along the Willamette Valley. McKenzie is starting the day with MODERATE and will likely increase to USG as smoke production increases. Overnight air may go USG/UNHEALTHY as the inversion sets in and smoke settles in the drainages. Like yesterday the increased smoke production and westerly winds will lead to smoke being pushed from the fire toward Sisters and Redmond and may settle down in Bend in the evening and overnight hours. Air quality is likely to be moderate for those locations. The air quality in Detroit Lake, Sweet Home, Eugene, and Cottage Grove should remain GOOD.

Daily AQI Forecast* for Wednesday

Station	Yesterday hourly			Tue 9/05	Comment for Today -- Wed, Sep 06	Forecast*	
	6a	noon	6p			Wed 9/06	Thu 9/07
