

Smoke Outlook

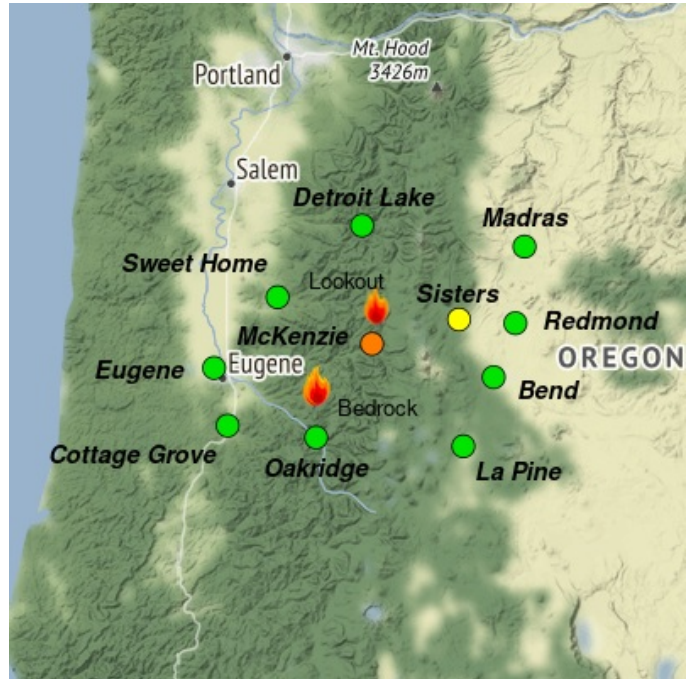

West-Central Oregon - Lookout and Bedrock Fire

9/07 - 9/08

Issued by [Wildland Fire Air Quality Response Program](#) on September 07, 2023 at 08:01 AM PDT

Fire
 The Lookout Fire is 24,417 acres with 25% containment. The Bedrock Fire is 31,590 acres with 90% containment. Latest fire information is available at InciWeb: [tinyurl.com/Fire-Information](https://www.inciweb.com/Fire-Information)

Smoke
 Still maintaining the pattern of the last few days. We will likely continue to see GOOD air quality along the Willamette Valley. McKenzie is starting the day with MODERATE and will likely increase to USG as smoke production increases. Overnight air may go MODERATE/USG as the inversion sets in and smoke settles in the drainages. Like yesterday the increased smoke production and westerly winds will lead to smoke being pushed from the fire toward Sisters and Redmond and may settle down in Bend in the evening and overnight hours. Air quality is could be moderate for those locations. The air quality in Detroit Lake, Sweet Home, Eugene, and Cottage Grove should remain GOOD.

Daily AQI Forecast* for Thursday

Station	Yesterday hourly			Wed 9/06	Comment for Today -- Thu, Sep 07	Forecast*	
	6a	noon	6p			Thu 9/07	Fri 9/08
