

Smoke Outlook

Northwest California-Coastal

9/26 - 9/27

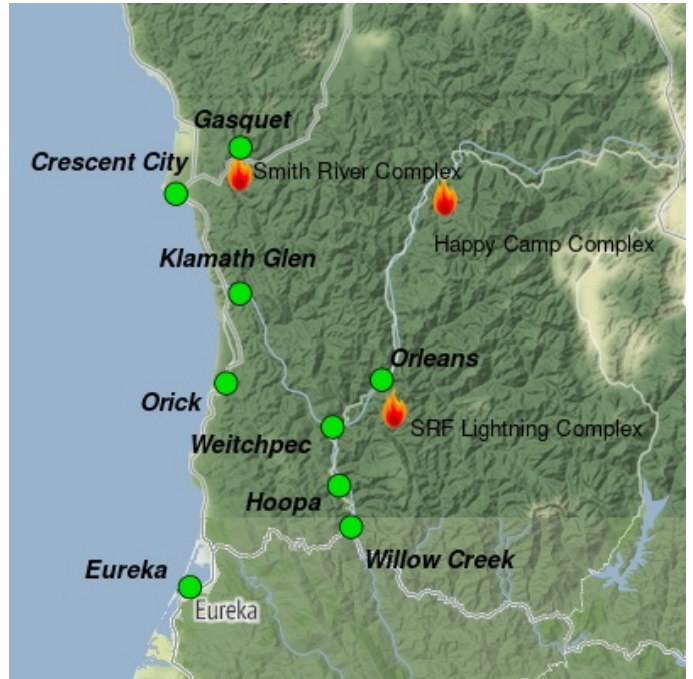

Issued by Wildland Fire Air Quality Response Program on September 26, 2023 at 06:34 AM PDT

Fire

Numerous fires have been burning in Northern California and Oregon. This outlook focuses on the Six Rivers Forest (SRF) Lightning Complex. For more information about other fires, please find them on InciWeb at [SRF Lightning](#), [Anvil](#), [Happy Camp](#), and [Smith River Complex](#). The incident area received widespread rain yesterday, limiting fire growth. Some smoldering may occur as fuels begin to dry out.

Smoke

Air quality across the forecast area for the SRF Lightning Complex is greatly improved as a result of recent weather. Communities along the valleys of the Klamath, Trinity, and Middle Fork Smith Rivers should all expect GOOD air quality today. This includes Crescent City, Klamath Glen, Orick, Eureka, Willow Creek, Weitchpec, Hoopa, Orleans and Gasquet. For areas to the NE of Smith River Complex, please check the [Northwest California-Interior Smoke Outlook](#).

Daily AQI Forecast* for Tuesday

Station	Yesterday hourly			Mon 9/25	Comment for Today -- Tue, Sep 26	Forecast*	
	6a	noon	6p			Tue 9/26	Wed 9/27
Klamath Glen	[Graph showing AQI fluctuating between 1 and 2]			●	Overall GOOD air quality	●	●
Crescent City	[Graph showing AQI fluctuating between 1 and 2]			●	Overall GOOD air quality	●	●
Gasquet	No hourly data			●	Overall GOOD air quality	●	●
Hoopa	[Graph showing AQI fluctuating between 1 and 2]			●	Overall GOOD air quality	●	●
