Cowlitz Complex Fire Update

September 18, 2023

Current Situation: The Cowlitz Complex is 34% contained with a total of 695 acres and 342 personnel. Yesterday, firefighters worked around the 22-acre Mission Fire near Forest Road 21 to contain the fire from a spillover that occurred on Saturday. There was slight growth in the Grassy Mountain Fire but it still poses no threat to the communities of Randle or Packwood. Crews will continue to monitor and patrol the Mission and other smaller fires in the forthcoming days. There was less smoke yesterday and it will likely be light this week, although fires from outside the area may add to regional haze. For current air quality conditions, see [Airnow.gov](https://www.airnow.gov).

Background: There are 30 fires in the complex. The fires started August 25 after a lightning event across the Gifford Pinchot National Forest. All fires are being managed under full suppression strategy.

Fire Restrictions: Fire Restrictions remain in effect. Campfires are prohibited across the Gifford Pinchot National Forest – only propane-fueled fire pits, stoves and lanterns are allowed. Additional information is available on the forest’s website at [Gifford Pinchot National Forest - Fire Management \(usda.gov\)](https://www.fs.usda.gov/giffordpinchot/fire-management). The decision to lift or maintain fire restrictions depends on factors such as current and expected weather conditions, fuel moisture, the level of fire activity, and the availability of firefighting resources to respond to additional ignitions.

Closures: In anticipation of ongoing fire activity in the vicinity of the Snagtooth Fire the following roads and trails are closed to the public to reduce exposure and help ensure public and firefighter safety: Forest Roads 9300 and 9341, Boundary Trail #1 (from Elk Pass to intersection with Summit Prairie), Summit Prairie #2, Craggy Peak #3, Snagtooth #4, Quartz #5, Stabler Camp #17, Wright Meadows #80, Basin Camp #3A, Quartz #5B, Quartz #5C (French Creek), Snyder Pasture #80A. Forest Road 8410 is closed for firefighter and public safety in the vicinity of the Pothole Fire, and Forest Road 78 is temporarily closed between the 78 and the 22 junction due to hazardous debris rolling out onto the roadway.

Temporary Flight Restrictions: Two TFRs are in effect during daylight hours, one located north of US-12 to Mount Rainier National Park, and a new TFR south of US-12 to include Snagtooth and Spencer Quartz fires. Fire aviation response is halted or delayed if an unauthorized aircraft enters the TFR. Temporary flight restrictions also apply to unmanned aircraft systems or drones.
