

Smoke Outlook

10/04 - 10/05

Northwest California-Coastal SRF Lightning Complex

Issued by Wildland Fire Air Quality Response Program on October 04, 2023 at 06:02 AM PDT

Special Statement

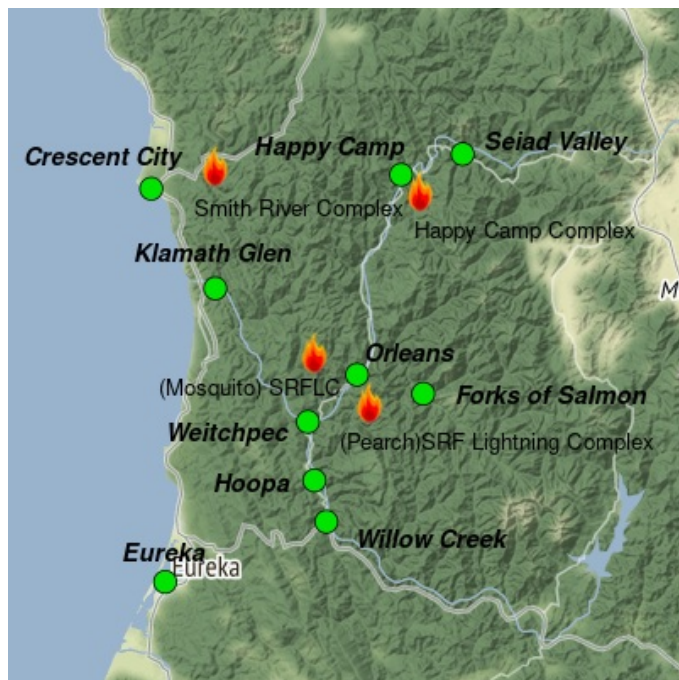

This outlook focuses on Six Rivers Forest (SRF) Lightning Complex, one of several fires in northern California. For more information on fires, please refer to InciWeb at [SRF Lightning Complex](#), [Happy Camp Complex](#), and [Smith River Complex](#). **Online Interactive Version Link: [Wildfire Smoke Outlook](#)**

Fire

The SRF Lightening Complex consists of the Mosquito Fire and Pearch fires that are currently producing very light smoke in isolated areas. The current outlook area has seen little growth the last couple of days with cloud cover, low temperatures and rain.

Smoke

Overall GOOD air quality in the outlook area again today into Thursday. Slight MODERATE smoke in the Salmon River Road area. We will start to see changes in fire activity as we see clear skies, along with forecasted temperature increases, and north-northeast-northwest winds increase in the outlook areas today. Most smoke will continue to stay interior inside the fire perimeter and the rest will disperse with the north winds.

Daily AQI Forecast* for Wednesday

Station	Yesterday			Tue 10/03	Comment for Today -- Wed, Oct 04	Forecast*	
	hourly					Wed 10/04	Thu 10/05
