

Smoke Outlook SW Oregon Anvil and Flat Fires

10/09 - 10/10

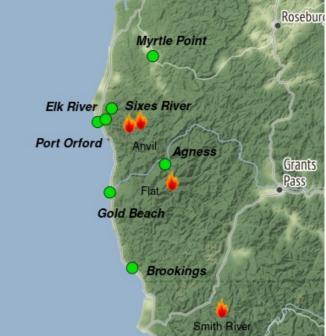

Issued by Wildland Fire Air Quality Response Program on October 09, 2023 at 08:09 AM PDT

Fire

The Anvil Fire is still 22,170 acres while containment rose to 60%. The Flat Fire also holds at 34,242 acres with 93% containment. Fire behavior was muted yesterday but still there are isolated smoldering dead logs and stumps within the edges of the current perimeter. Moderate burning conditions will not cause the fire to grow today nor over the next few days with rain expected.

Smoke

Today, the air quality along the south coastal region of Oregon is expected to remain in the GOOD range. Smoke emissions have significantly decreased, and consequently, there should be no adverse effects on air quality or visibility on the roadways and highways.

Daily AQI Forecast^{*} for Monday

| | Yesterday | Sun | Forecast* | Mon | Tue |
|--------------|----------------|-------|--|-------|-------|
| Station | hourly | 10/08 | Comment for Today Mon, Oct 09 | 10/09 | 10/10 |
