

Smoke Outlook

10/01 - 10/02

Northwest California-Coastal SRF Lightning Complex

Issued by Wildland Fire Air Quality Response Program on October 01, 2023 at 06:35 AM PDT

Special Statement

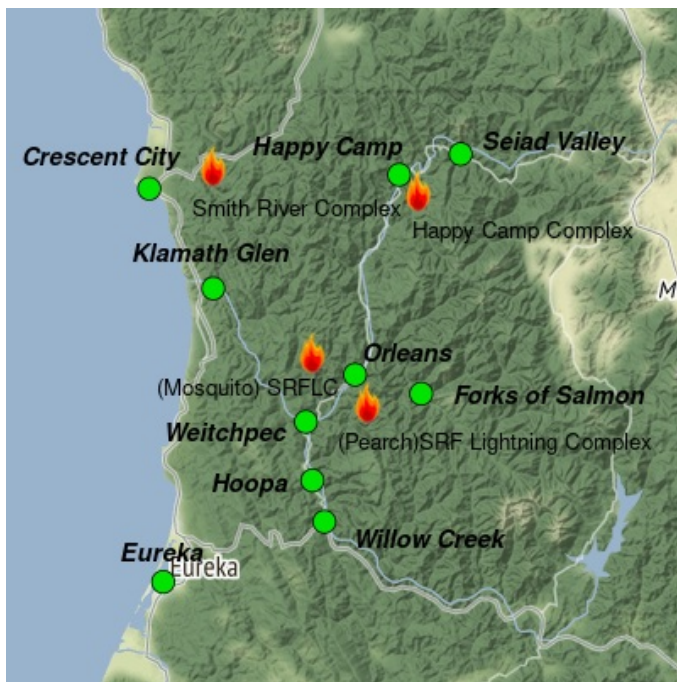

This outlook focuses on Six Rivers Forest (SRF) Lightning Complex, one of several fires in northern California. For more information on fires, please refer to InciWeb at SRF Lightning Complex, Happy Camp Complex, and Smith River Complex. Online Interactive Version Link: Wildfire Smoke Outlook

Fire

The SRF Lightening Complex consists of the Mosquito Fire and Pearch fires that are currently producing very light smoke in isolated areas. The current outlook area has seen little growth the past 3 days with cloud cover, low temperatures and rain. We will start to see changes in fire activity as we see clear skies, along with forecasted temperature increases, and north-northeast winds in the outlook areas.

Smoke

Overall GOOD air quality in the outlook area today into Monday. Slight MODERATE smoke in the Salmon River Road area around Somes Bar early a.m.
