Latest Smoke Outlook:

https://fire.airnow.gov/?aqi_v=2&map_ids=&pa_ids=%23

INCIDENT OBJECTIVES:

- Provide for firefighter and public safety throughout all phases of the incident
- Manage hazards to responders and the public using a risk-based approach to decision-making on a continual basis
- Protect critical values at risk
- Reduce the long-term risk to communities from future wildfire events

YESTERDAY'S OPERATIONS:

- Smoke output was minimal, and confined to interior pockets of fuel.
- Firefighters patrolled the outside perimeter of the fire area, clearing brush and other wood debris to further-strengthen firelines.
- Crews completed repairs to roads impacted by firefighting operations.

TODAY'S PLAN:

- Crews will continue patrolling the fire perimeter.
- Smoke may be visible in the area and it may settle into valleys and other low-lying areas, especially at night and in the early morning hours. Wildfire smoke may affect your health. For more information, please go to: <https://www.colorado.gov/pacific/cdphe/wood-smoke-and-health>

WEATHER:

- High temperatures over the fire area may reach 70 on Monday, as the warming trend continues. Humidity levels will drop down into the teens. Winds will be light and terrain-driven.
