

Cottage Grove – Lane 1 Fires Update – Monday, July 29, 2024

On Sunday July 28, the Clark 900, Puddin, Adam Mountain, Mineral, Quartz, and Jack Saddle fires merged and are now combined as the Adam Mountain Fire. The Cottage Grove – Lane 1 Fires consist of the following fires for a total of 9959 acres: Lane 1 (1932 acres) and Adam Mountain (8027 acres) fires. The Cottage Grove – Lane 1 and the Adam Mountain fires are considered 7% contained. Percent containment represents sections of fire line that pose no escape risk without further action from firefighters. There are currently 715 personnel assigned to the incident. Scooper Planes may be operating out of Dorena Lake to support fire operations.

Today, fires experienced moderate intensity fire behavior. Crews on the Lane 1 fire continue to install and improve established fire lines on the North side of the fire. Adam Mountain, continue to construct direct fireline and mop-up and establish operational and contingency lines the east while providing for safety. Smoke impacts delayed the use of aviation resources. Available resources and safety hazards continue to be challenges.

Closures: Due to the wildfires, the Umpqua National Forest has issued Forest Order No. 06-15-24-03 and Forest Order No. 06-15-02-24-01 that can be found at: <https://www.fs.usda.gov/aler/umpqua/alerts-notices>.

The Bureau of Land Management has issued the following emergency closure for Lane County: <https://blm.gov/announcement/bureau-land-management-issues-emergency-fire-closure-lane-county>

The following County roads are closed except to owners of private lands accessed from these roads: Brice Creek Road east of Umpqua National Forest Boundary, all of Sharps Creek Road.

Evacuations: A “Level 1” Evacuation notice has been issued by the Lane County Sheriff’s Department for areas east of Disston, starting at Brice Creek Road milepost 0.7 and following Brice Creek Road south, as well as Bohemia Mining District and Fairview Peak. An evacuation map is available at: www.LaneCountyOR.gov/Lane1Fire.

Temporary Flight Restriction (TFR): A “TFR” is in place at an altitude from the surface up to and including 8500 feet, daily (24 hours) until further notice. Complete information is available at https://tfr.faa.gov/save_pages/detail_4_4814.html. Flying a drone near or around a wildfire compromises the safety of pilots and interferes with firefighting efforts.
