# Fork Fire

*July 21, 2024 – Evening Update*

**Size:** 330 acres

**Containment:** 45%

**Total Personnel:** 190

**Firefighter Injuries:** 2

**Start Date & Time:** 7-19-24 3:23 pm

**Cause:** Under Investigation

**Location:** Heaton Flats (near East Fork Rd)

**Structures Threatened:** 0

### Current Situation:

There was increased fire activity within the upper northwest area of the fire perimeter today. Firefighters supported by helicopters kept the fire from crossing the fireline. Fire Incident Commander Trainee Joel Gonzalez stated, “With great support from ground and air resources, firefighters were able to hold the fire to 330 acres within steep rugged terrain.” A heat advisory is in effect until Thursday night. Hot, dry, and windy conditions continue to be a potential threat to increased wildfire growth, as well as new wildfires in the forest.

For current wildfire information, follow Angeles National Forest:

- Website: [fs.usda.gov/angeles](https://fs.usda.gov/angeles)
