

Smoke Outlook

Southern Oregon

7/30 - 7/31

Issued by [Wildland Fire Air Quality Response Program](#) on July 30, 2024 at 07:58 AM PDT

Fire

Numerous fires and fire complexes are ongoing within the Cascades. For the latest fire information, see <https://inciweb.wildfire.gov/>

Smoke

Today's smoke is expected to have the largest impact in communities east of the Cascades with conditions reaching UNHEALTHY along the Highway 97 corridor. GOOD conditions are likely today in areas west of the Cascades with little to no impact along the I-5 corridor from Cottage Grove to Medford. A shift in the winds tonight will push smoke west and southwest leading to increased smoke impacts in these areas tomorrow. Overall, expecting conditions across the forecast area to have continuing smoke or an increase in smoke on Wednesday with the exception of Cottage Grove and Roseburg.

Air Quality Advisories are in effect, see <https://www.oregonsmoke.org/> for details.

Additional smoke outlooks are being issued across Oregon, see <https://fire.airnow.gov/> for latest air quality information.

Daily AQI Forecast* for Tuesday

Station	Yesterday hourly			Mon 7/29	Comment for Today -- Tue, Jul 30	Forecast*	
	6a	noon	6p			Tue 7/30	Wed 7/31
