## INCIDENT MORNING UPDATE

*Date: 7-16-2024 Time: 9:00 am*

**Size:** 2936 acres

**Containment:** 59%

**Total Personnel:** 610

**Structures Threatened:** 416

**Start Date & Time:** 7-7-24 9:51 am

**Cause:** Under Investigation

**Location:** Southside of Lytle Creek

Firefighters will focus on patrols, mop-up operations and enhancing containment lines throughout the fire while remaining prepared to mobilize and respond to any new fire starts nearby. Fire suppression repair operations will expand to containment lines that have already been mopped up and show no heat. Crews will consolidate and remove materials and equipment from these lines. Specialized equipment will be brought in to begin restoring the lines cut to contain the fire, including contingency lines farther from the fire's edge. Containment increased to 59 percent.

“We’re now switching to suppression repair—which consists of returning disturbed areas to the desired condition. The team is just as enthusiastic about repair as we are about fighting fire. We take pride in our work and want to leave the forest in good shape,” said Stephen Fillmore, Deputy Incident Commander.

The Forest Service has an area closure in effect on the San Bernardino and the Angeles National Forest. The public is prohibited from recreating in the fire area and should not enter the forest on Lytle Creek Road. For firefighter and public safety, the forest closure order remains in effect.
