

Washington Department of Natural Resources Homeowner Assistance Programs:

After The Fire WA:

- A website with resources for homeowners that have been affected by wildfire in Washington. This site offers links for local help, guides for staying safe during wildfires, and personal, family and ecosystem recovery.

<https://afterthefirewa.dreamhosters.com/>

Wildfire Ready Neighbors:

- A free program where WA DNR wildfire employees conduct home assessments before and during wildfire season to help homeowners make a plan for improving the resilience of their homes.

Financial Assistance for Wildfire Resilience and Forest Health:

- Are you a non-industrial forestland owner who wants help managing your lands for optimal forest health or applying for financial assistance to reduce catastrophic wildfire risk?
- DNR's financial assistance program for wildfire resilience and forest health, formerly referred to as the cost-share program, focuses on technical and financial assistance to implement forest health or wildfire mitigation treatments or to help landowners write forest management plans.
