Borel Fire: Crews continue to make progress with suppression repair work. Firefighters are still on high alert for potential new fires that start in the immediate area and are ready for a rapid response. Burned Area Emergency Response (BAER) teams have arrived and will begin to determine the need for and to prescribe and implement emergency treatments to stabilize and prevent unacceptable degradation to natural and cultural resources. We encourage residents re-entering the area to proceed with caution to avoid unseen hazards caused by the fire, and help maintain the safety of repair crews working in the area.

Trout and Long Fire: For continuing information, please visit: <https://inciweb.wildfire.gov/incident-information/casqf-2024-sqf-lightning>
