Sheriff Todd McKinley

Media Release:

- Falls Fire removes all evacuation zones in Grant County leaving Grant County in an evacuation free status.

In coordination with the US Forest Service and Harney County all remaining evacuation zones have been removed around the Falls Fire. Forest closures are still in place and for additional information, please refer to the Forest Service website at <https://www.fs.usda.gov/alerts/malheur/alerts-notice> for maps and more up to date information on forest closures.

Although the risk has been significantly reduced, we remind the public that there is still significant fire fighting activity occurring in the area and to avoid the closed forest areas for your own safety.
