 North American 1983 Datum Lat/Long Grid

Firefighters are using heavy equipment, hand crews, and helicopters to prepare and improve fireline. Defensive firing on and along Grassy Ridge.

Preparing for defensive firing south of Horse Mountain Lookout.

Firefighters continue structure protection in Cuprum and Bear. Secondary firelines are being constructed to protect communities on the eastern side.

Mopping up hot spots and patrolling the fireline. Holding the fireline at Forest Road 071.

Maintaining structure protection in this area. Both night and day crews are mopping up.

Due to lack of fire activity in this area, firefighters have moved from the Snake River corridor to other priority areas of the fire. Aviation will monitor this area.

Continuing to meet with ranchers to evaluate needs in this area and throughout the eastern side.
