Crews are protecting powerlines and other values north towards Hells Canyon Dam.

Crews are working to improve fireline north of Cuprum and will continue to clear the area around Horse Mountain Lookout.

Firefighters are checking for hot spots and mopping up along the Snake River corridor.

Firefighters continue to improve dozer and hand line. Structure protection continues in Bear and Cuprum.

Dozers and masticators are working to complete fire line west of Bear and crews will mop up spot fires along FSR #071.

Helicopters are dropping water in Flat Creek and Wildhorse canyon. Structure protection continues in this area.
