

Smoke Outlook

Eastern Oregon Multiple Fires

8/04 - 8/05

Issued by [Wildland Fire Air Quality Response Program](#) on August 04, 2024 at 07:40 AM PDT

Special Statement

An air quality alert is in place for Grant and Harney Counties until further notice.

Fire

There are multiple fires affecting the forecast area. For more information on these incidents, please visit [Inciweb](#).

Smoke

Air quality levels range from MODERATE to GOOD across the forecast region this morning. While the Crazy Creek and Battle Mountain Complex fires remain active, smoke production is less than in previous days due to increased humidity. Additionally, showers are possible across parts of the region today. Locations that will experience the most smoke today will be just north of the Crazy Creek fire near Dayville where UNHEALTHY FOR SENSITIVE GROUPS conditions are possible. The forecast is for MODERATE conditions of smoke to persist for the remainder of the day over most of the region, with GOOD conditions expected around Heppner.

Additional Smoke Outlooks

Smoke outlooks for adjacent areas are posted on the [Fire and Smoke Map](#).
