

Smoke Outlook

Eastern Oregon Multiple Fires

8/05 - 8/06

Issued by [Wildland Fire Air Quality Response Program](#) on August 05, 2024 at 07:42 AM PDT

Fire

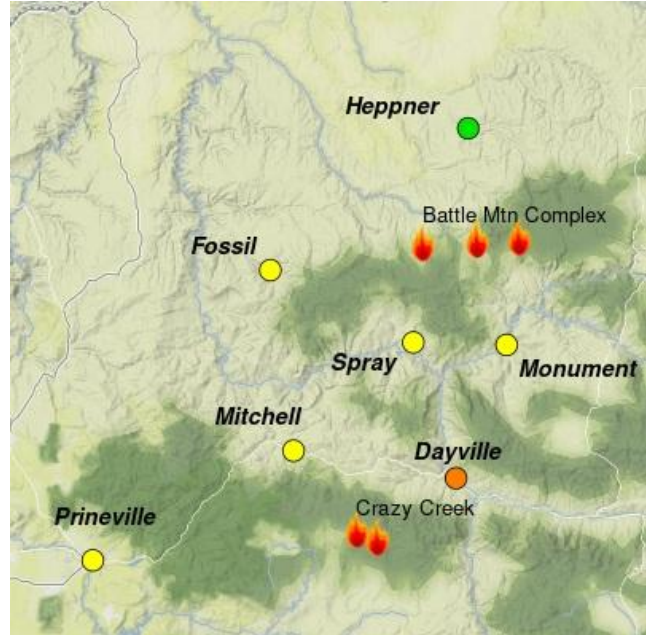

There are multiple fires affecting the forecast area. For more information on these incidents, please visit [Inciweb](#).

Smoke

Air quality levels range from MODERATE to GOOD across the forecast region this morning. The Crazy Creek fire grew by 10,000 acres yesterday and continues to produce smoke that is affecting the US-26 corridor around Dayville. UNHEALTHY FOR SENSITIVE GROUPS conditions are expected in and around Dayville. Smoke levels are expected to be highest in this region in the early afternoon when the smoke is mixed down to the surface. Elsewhere MODERATE to GOOD conditions are forecast. Looking ahead, the storms yesterday did produce some lightning so we will be monitoring for new sources of smoke from emerging fires.

Additional Smoke Outlooks

Smoke outlooks for adjacent areas are posted on the [Fire and Smoke Map](#).

Daily AQI Forecast* for Monday

Station	Yesterday			Sun 8/04	Comment for Today -- Mon, Aug 05	Forecast*
