

Smoke Outlook

Southern Oregon

8/23 - 8/24

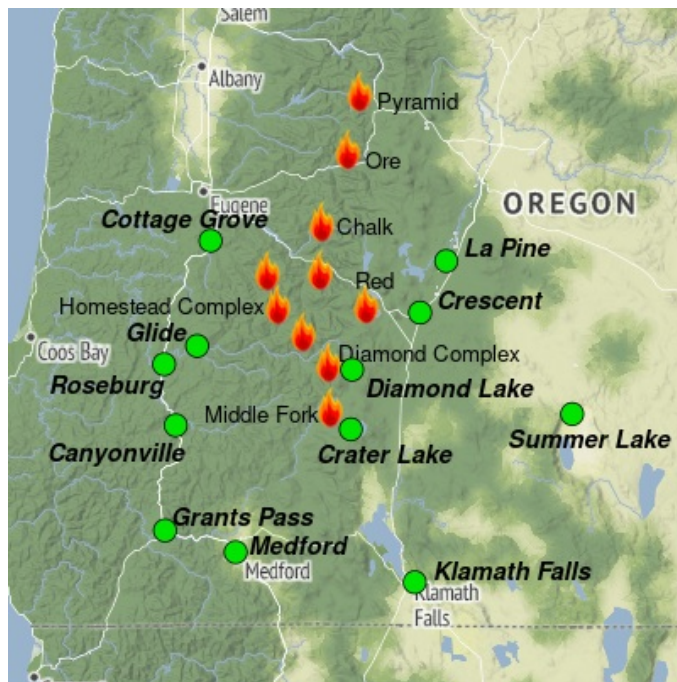

Issued by [Wildland Fire Air Quality Response Program](#) on August 23, 2024 at 07:35 AM PDT

Fire

The multiple fires burning within the Cascades are quieting again thanks to moist marine air moving inland. The cooler temperatures and higher chances (70%-80%) for showers Friday, with scattered showers Saturday, will help suppress smoke output from fires. Lightning is also possible Friday afternoon and evening. Expect a warming and drying trend to begin Sunday, which could lead to increased fire activity and smoke production once again. Fire crews continue working on fire line construction, patrolling, mop up of hotspots, and other suppression activities. The Middle Fork Fire, Homestead and Diamond Complexes expect no significant growth during cooler, wetter weather. The latest fire information is at [Inciweb's Wildfire Information](#).

Smoke

Smoke impacts continue to be low. **GOOD** air quality expected for the entire forecast area, but drying of fuels beginning Sunday could increase fire activity and smoke production. Areas nearest the fires and east of the Cascades will continue to see relief for a few days, and visitors to Diamond and Crater Lakes can expect no smoke impacts. The I-5 corridor continues in **GOOD** for the next few days.

Daily AQI Forecast* for Friday

Station	Yesterday hourly			Thu 8/22	Forecast*	Fri 8/23	Sat 8/24
	6a	noon	6p				
La Pine					GOOD air quality and low potential for smoke.		
Roseburg					GOOD air quality and little to no smoke continue.		
Cottage Grove					GOOD air quality and little to no smoke continue.		
Klamath Falls					GOOD air quality and little to no smoke continue.		
Medford					GOOD air quality again. Little to no smoke continue.		
Canyonville	No hourly data				GOOD air quality and little to no smoke continue.		
Grants Pass					GOOD air quality and little to no smoke continue.		
Glide					GOOD air quality and little to no smoke continue.		
Diamond Lake					GOOD air quality and little to no smoke continue.		
Crater Lake					GOOD air quality and little to no smoke continue.		
Crescent					GOOD air quality and little to no smoke continue.		
Summer Lake	No hourly data				GOOD air quality and little to no smoke continue.
