

Smoke Outlook

Southern Oregon

8/31 - 9/01

Issued by [Wildland Fire Air Quality Response Program](#) on August 31, 2024 at 06:30 AM PDT

Fire

Warmer and drier weather has increased fire activity and smoke production. Fire crews continue working on fire line construction, patrolling, mop up of hotspots, and other suppression activities. The latest fire information is at [Inciweb's Wildfire Information](#).

Smoke

Local smoke production has increased from the active fires yesterday. Smoke from Idaho fires also contributed to the degrading of air quality in Oregon. Expect continued MODERATE impacts to smoke prone areas.

Daily AQI Forecast* for Saturday

Station	Yesterday hourly			Fri 8/30	Comment for Today -- Sat, Aug 31	Forecast*	
	6a	noon	6p			Sat 8/31	Sun 9/01
