**Fire Information:** 530-338-0317

**Media Line:** 909-855-4233

**Hours:** 08:00am to 8:00pm

**Location:** Shasta County, CA

**Start Date:** Wednesday, October 9, 2024, at 6:57 p.m.

**Cause:** Human caused

**Size:** 4,385

**Percent Contained:** 8%

**Vegetation:** Timber, Chapparal

**Number of Personnel Assigned:** 1,393

A red flag warning is in effect until later this afternoon. High winds have significantly accelerated the drying conditions of local fuels, resulting in a decrease in fuel moisture levels. Ground crews will prioritize areas showing intense levels of heat by reinforcing existing containment lines using various aircraft, bulldozers, engines and hand crews. With a mobile retardant base established in Big Bend, aerial support will be maximized to ensure full suppression of heat reported along Beartrap and Sulunhares Creeks. Structure protection groups will conduct final risk assessments today and prepare structures for defense if deemed necessary. As wind speeds reduce, crews will resume defensive firing operations (strategic burning of vegetation between containment lines and the active fire) if it is safe to do so.

**WEATHER:** Gusty north to northeast winds will continue throughout the morning and diminishing in the afternoon. Humidity levels are expected to decrease, lighter north to northeast winds will continue tonight through Sunday morning and shifting to southwest winds Sunday afternoon.

**EVACUATIONS:** Mandatory evacuations remain in place for zone LKH-1448-B. Residents who have not evacuated are encouraged to do so. Evacuation information and alerts can be found by visiting [protect.genasys.com](http://protect.genasys.com)
