Location: Shasta County, CA

Cause: Human caused

Percent Contained: 23%

Number of Personnel Assigned: 1,569

Start Date: Wednesday, October 9, 2024, at 6:57 p.m.

Size: 5,099

Vegetation: Timber, Chapparal

Ground crews have reported favorable results following tactical firing operations that commenced on Sunday. Minor challenges were encountered associated with the rolling of materials across steep terrain, overall firing operations have effectively maintained the fire within the established containment lines. Today, crews will focus on enhancing their efforts by reinforcing handlines and utilizing aircraft to cool areas of concern. Additionally, structural assessment teams have completed risk evaluations in residential areas and will be deployed throughout the fire zone to offer further support.

WEATHER:

Humidity levels are expected to rise today and are projected to continue increasing until Tuesday. A minor decrease is anticipated from Wednesday to Thursday, followed by another increase on Friday. Winds are expected to be influenced by the terrain, with a possibility of upcanyon winds from the south to southwest later this afternoon and throughout the evening. Additionally, downcanyon winds are forecasted to originate from the north to northeast with gusts reaching 10-12mph.

EVACUATIONS: Mandatory evacuations remain in place for zone LKH-1448-B. Residents who have not evacuated are encouraged to do so. Evacuation information and alerts can be found by visiting protect.genasys.com
