168,002 Acres on 10/4 @ 0003 PDT

Closure

Smoke was seen around the footprint of the Crazy Creek Fire. An engine and helicopter responded and put out some lingering embers to keep this area contained.

Fire here still burns in areas that are inaccessible to fire crews, like along cliff faces! The team continues to monitor this area to prevent fire growth.

Interior flare ups may also contribute to smoke in the area

Fire personnel will continue to complete mop up and suppression repair along the black containment lines.

Crews today will complete firing operations near the Black Canyon Wilderness. Expect to see increased smoke in this area throughout the day.

Fire acres: **168,002**
Total Personnel: **601**
Percent Containment: **89%**

A critical weather day is expected this afternoon over the Rail Ridge Fire
