

Smoke Outlook

Salmon Challis Red Rock & Garden

10/10 - 10/11

Issued by [Wildland Fire Air Quality Response Program](#) on October 10, 2024 at 07:44 AM MDT

Special Statement

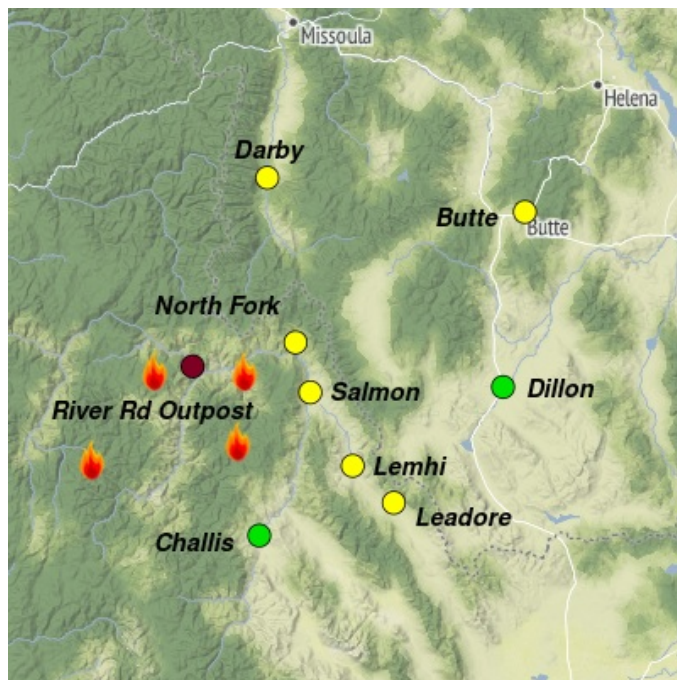

EXPECT PERIODS of REDUCED VISIBILITY along HWY 93 between North Fork and Salmon. Check closures along the North Fork River Rd, Panther Cr, Deep Creek, and Middle Fork. These locations have visibility less than 100 yds and are within the fire restricted evacuation zone.

Fire

Cloudy skies moving into the area will help moderate fire spread today. Short runs and group torching are still expected when winds align with steep slopes and drainages. Continued progress is being made to contain the fire with direct and indirect line construction.

Smoke

Light winds and cloudy skies will limit the movement of smoke today. Thick HAZARDOUS levels of smoke with limited visibility can be expected along the River Rd, Panther Cr, and the FS-55 near Cobalt. Conditions in the Lemhi Valley will remain MODERATE most of the day with potential for clearing this afternoon.
