

Smoke Outlook

Northwest Wyoming - Pack Trail Fire

10/24 - 10/25

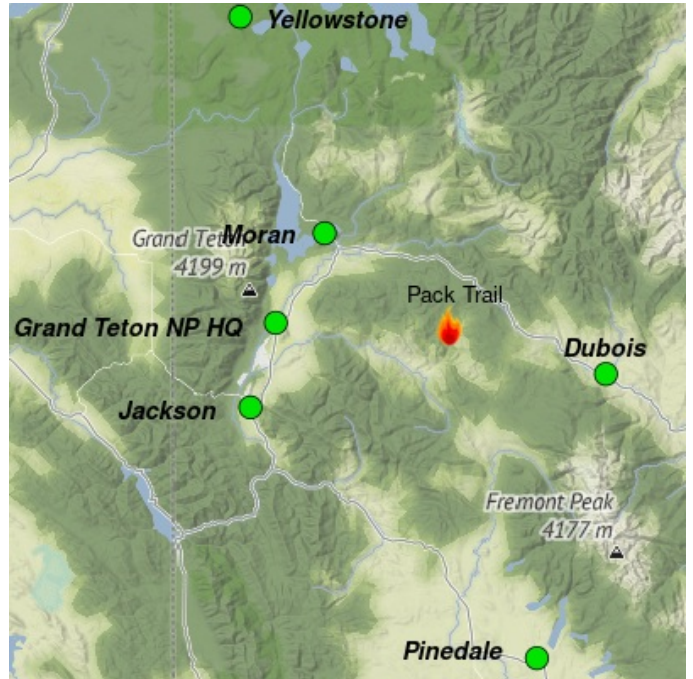

Issued by [Wildland Fire Air Quality Response Program](#) on October 24, 2024 at 08:02 AM MDT

Fire

The fire has burned 89,645 acres. There had been some drying of fuels since the rain/snow last week. Fire behavior has been limited to smoldering of large dead and down fuels, small pockets of open flame and isolated single tree torching. Fuel moisture will increase again today with this morning's precipitation. Smoldering and creeping will continue but there should be no surface fire or torching. No fire progression is expected.

Smoke

Decreasing amounts of smoke as fuels are consumed and firefighters continue to mop-up. This morning's rain and snow will further decrease smoke but not end it as large down and dead fuels will continue to smolder. The limited amount of smoke should not reach any of the monitoring sites or communities at levels that would degrade air quality. All those sites should expect GOOD air quality all day.

Daily AQI Forecast* for Thursday

Station	Yesterday			Wed 10/23	Forecast*	Comment for Today -- Thu, Oct 24	Thu 10/24	Fri 10/25
	hourly							
	6a	noon	6p					
Yellowstone						GOOD air quality all day due to minimal fire activity.		
Jackson						GOOD air quality all day		
Grand Teton NP HQ	No hourly data					GOOD air quality all day		
Moran	No hourly data					GOOD air quality all day due to low fire activity.		
Dubois	No hourly data					GOOD air quality all day.		
Pinedale						Summary: GOOD air quality all day due to low fire activity.		

Issued Oct 24, 2024 by Steve Paes steve_paes@yahoo.com

Air Quality Index (AQI)	Actions to Protect Yourself
Good	None
Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.
USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.
Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.
Very Unhealthy	Everyone should avoid prolonged or heavy exertion.
Hazardous	Everyone should avoid any outdoor activity.

***Disclaimer:** This forecast is based on fine particulates only; ozone is not included. Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
