

Smoke Outlook

Northwest Wyoming - Pack Trail Fire

10/25 - 10/26

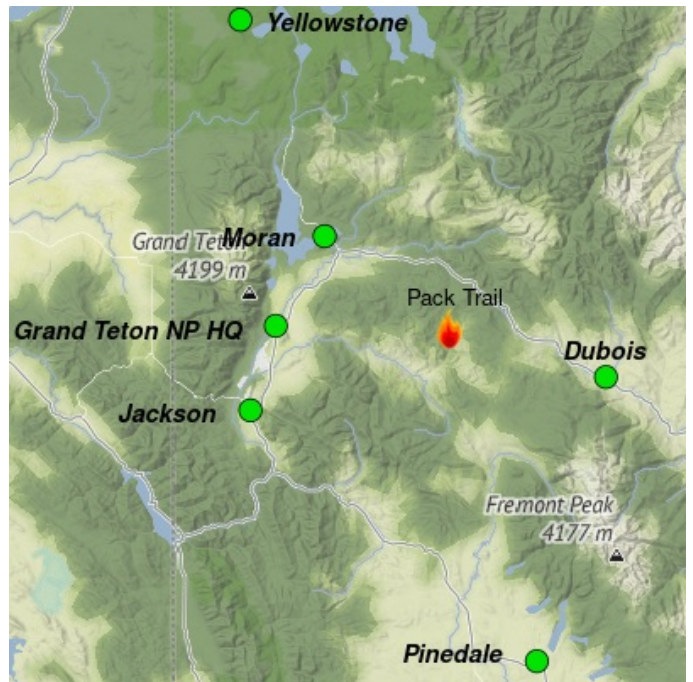

Issued by [Wildland Fire Air Quality Response Program](#) on October 25, 2024 at 07:56 AM MDT

Fire

The fire has burned 89,852 acres. The rain and snow yesterday has raised moisture levels of all fuels. Small sized fuels that normally carry fire progression are saturated and will not burn. Larger fuels have also had increases in moisture levels but will continue to smolder. Fire behavior will be limited to the smoldering of large dead and down fuels. No fire progression, torching or spotting is expected.

Smoke

Decreasing amounts of smoke as fuels burn out. The rain and snow yesterday will also decrease smoke production as the small sized fuels were put out and will be unable to burn today. The limited amount of smoke should not reach any of the monitoring sites or communities at levels that would degrade air quality. All those sites should again expect GOOD air quality all day.

Daily AQI Forecast* for Friday

Station	Yesterday			Thu 10/24	Forecast*	Fri 10/25	Sat 10/26
	hourly						
	6a	noon	6p		Comment for Today -- Fri, Oct 25		
Yellowstone	█	█	█	●	GOOD air quality all day due to minimal fire activity.	●	●
Jackson	█	█	█	●	GOOD air quality all day	●	●
Grand Teton NP HQ	No hourly data				GOOD air quality all day	●	●
Moran	No hourly data				GOOD air quality all day due to low fire activity.	●	●
Dubois	No hourly data				GOOD air quality all day.	●	●
Pinedale	█	█	█	●	Summary: GOOD air quality all day due to low fire activity.	●	●

Issued Oct 25, 2024 by Steve Paes steve_paes@yahoo.com

Air Quality Index (AQI)	Actions to Protect Yourself
● Good	None
● Moderate	Unusually sensitive individuals should consider limiting prolonged or heavy exertion.
● USG	People within Sensitive Groups* should reduce prolonged or heavy outdoor exertion.
● Unhealthy	People within Sensitive Groups* should avoid all physical outdoor activity.
● Very Unhealthy	Everyone should avoid prolonged or heavy exertion.
● Hazardous	Everyone should avoid any outdoor activity.

***Disclaimer:** This forecast is based on fine particulates only; ozone is not included. Forecasts may be wrong; use at own risk. Use caution as conditions can change quickly. See your health professional as needed. Smoke sensitive groups should take appropriate precautions.
