Virtual Community Meeting Saturday, January 18th 4:00 p.m.: Eaton Fire officials will host a virtual community meeting and provide an update on the current fire situation, address questions, and discuss recovery. The meeting will be streamed live on YouTube:

<https://www.youtube.com/@LosAngelesCountyFD>. A question-and-answer session will follow the presentation. Please submit your questions in advance via email at 2025.eaton@firenet.gov.

Current Situation: Firefighters continue to extinguish hot spots in steep, inaccessible canyons near Winters Creek, Mt. Lowe, and Mt. Wilson. Crews and water dropping helicopters are working in unison to extinguish any remaining heat in these areas. A total of 60 miles of control lines have been established around the fire's perimeter, including 8 miles of hand line. Tactical patrols and mop up continue throughout the communities along the southern flank of the fire. Infrastructure work is in progress, with efforts focused on restoring utilities and critical services to support repopulation and long-term recovery in affected areas.

Weather: The marine influence will peak overnight, with relative humidity reaching 80% across the fire area. Low marine clouds and fog are possible early Saturday morning. A weakening south wind will allow the marine influence to wane through the weekend. Dry conditions are expected to return next week.

Damage Assessment: Damage inspection teams have completed inspections for 85% of all structures within the fire footprint.
